

Lampo

Morellino di Scansano “Aged in barrique 9 months”

Grapes Sangiovese 90% and other red grapes

Region Tuscany

Soil Sandy with sandstone skeleton, the soil is relatively homogeneous.

System of growing Spurred cordon.

Harvest The grapes on reaching perfect phenolic ripeness and after repeated tasting, are harvested.

Winemaking Once the grapes reach the cellar, they are gently destemmed and left to ferment in stainless steel tanks at a constant temperature of 30 °C. Once the wine has been separated from the skins, it is immediately placed in tonneaux and second and third passage barriques with subsequent ageing for 15-18 months. Before being placed on the market, it is refined in the bottle.

Tasting notes COLOR: Deep ruby red color with a garnet rim.
AROMA: Aromas of blueberry, liquorice and oriental spices.
TASTE: Broad and sweet on entry, slightly austere and herbal on the palate, with red fruit and mineral flavours. A nice young tannin, freshness and important length define a wine for keeping long time.

Food pairing The wine has a beautiful ruby red color, a complex and refined aroma of red fruits such as raspberries and black cherries. A soft and enveloping taste with refined tannins.

Le Stoppie DOC Vermentino Maremma Toscana

Grapes 100% Vermentino.

Region Maremma, Tuscany

Soil Sandy with sandstone skeleton, the soil is homogeneous.

Harvest On ripening the grapes are harvested, depending on the weather conditions, between late August and mid-September.

Winemaking Traditional white vinification, takes place in stainless steel tanks at controlled temperature (max 18° C). Ageing on the yeasts takes place for about one month in the same tanks. Refrigeration at 0° and filtration then follows. The wine is bottled by February, following the harvest.

Tasting notes The wine has a straw yellow colour, a refined aroma with complex hints of ripe fruit and a full, round and soft taste.

Food pairing It is ideal to accompany game, red meats, succulent first courses and aged cheeses. Serve at 18 °C. Open the bottle one hour before serving, preferably if delicately decanted.

Pinot Nero Toscana IGT

Grapes 100% Pinot Noir.

Region Maremma, Tuscany

Soil Sandy with a skeleton of a particularly abundant sandstone nature.

Harvest The grapes on reaching perfect phenolic ripeness and after repeated tasting, are harvested in the first week of September. Harvesting is done manually, the grapes are carefully selected and put into 3ql "mastelle".

Winemaking Once the grapes reach the cellar, they remain in the "mastelle", where alcoholic fermentation takes place for about a week, followed by manual fulling twice a day. Ageing, after separating the skins from the wine, the latter is transferred to French Oak barriques for 18-24 months; during this period it is regularly subjected to batonnage. After a slight filtration, it is refined in the bottle for a further 12 months.

Tasting notes COLOR: The wine has a light ruby red color.
AROMA: On the nose are perceived hints of red fruits and spicy notes.
TASTE: The palate is well balanced, excellent acidity and refined tannins, which give the wine a perfect aromatic concentration.

Cabernet Sauvignon IGT Toscana

Grapes 100% Cabernet Sauvignon

Region Tuscany

Tasting notes COLOR: Ruby red color.
AROMA: A complex and sophisticated scent of ripe red fruits,
TASTE: Soft and smooth taste with velvety tannins.

Food tasting Beef and Venison.
